RESPONSE

Assistant Commissioner
for Patents
P.O. Box 1450
Alexandria, VA 22313-1450

Sir:

In the claims:

1. (currently amended): An energy-absorbing element capable of absorbing a portion of impact energy created during a collision, the energy-absorbing element comprising at least one layer of composite material having a semi-compacted thickness less than an initial prepared thickness comprising a mixture of mineral fibers and organic fibers.

2. (currently amended): An energy absorbing element as set forth in claim 1, wherein said mineral fibers and said organic fibers are entangled as composite material
